**YOUR
MASTER
PIECE**

Welcome

A close-up photograph of a dark wood door. A silver metal handle is mounted on the door, and below it is a silver metal lock with a keyhole. The text "YOUR SIGNATURE" is overlaid in large, white, bold, sans-serif capital letters across the center of the image.

**YOUR
SIGNATURE**

We don't simply sell doors. We offer you the opportunity to create an entrance that narrates your story - **one that makes a statement about who you are.**

ATURE RANCE

THE MOMENT YOU'VE BEEN WAITING FOR:

ARRIVING HOME

Protected by precision engineering and wrapped in comfort - the Schüco experience begins the moment you approach your door.

THE ALUMINIUM **ADVANTAGE**

Inherently stable with minimal thermal expansion, aluminium delivers exceptional performance in all conditions. Its superior energy efficiency meets the most stringent standards while providing outstanding thermal insulation, security, acoustic isolation, and complete weather resistance.

Remarkably strong yet lightweight, aluminium maintains its pristine appearance and structural integrity regardless of harsh weather exposure. This exceptional durability ensures your investment remains flawless for decades - no maintenance, no repainting, just enduring elegance.

SUPERIOR THERMAL

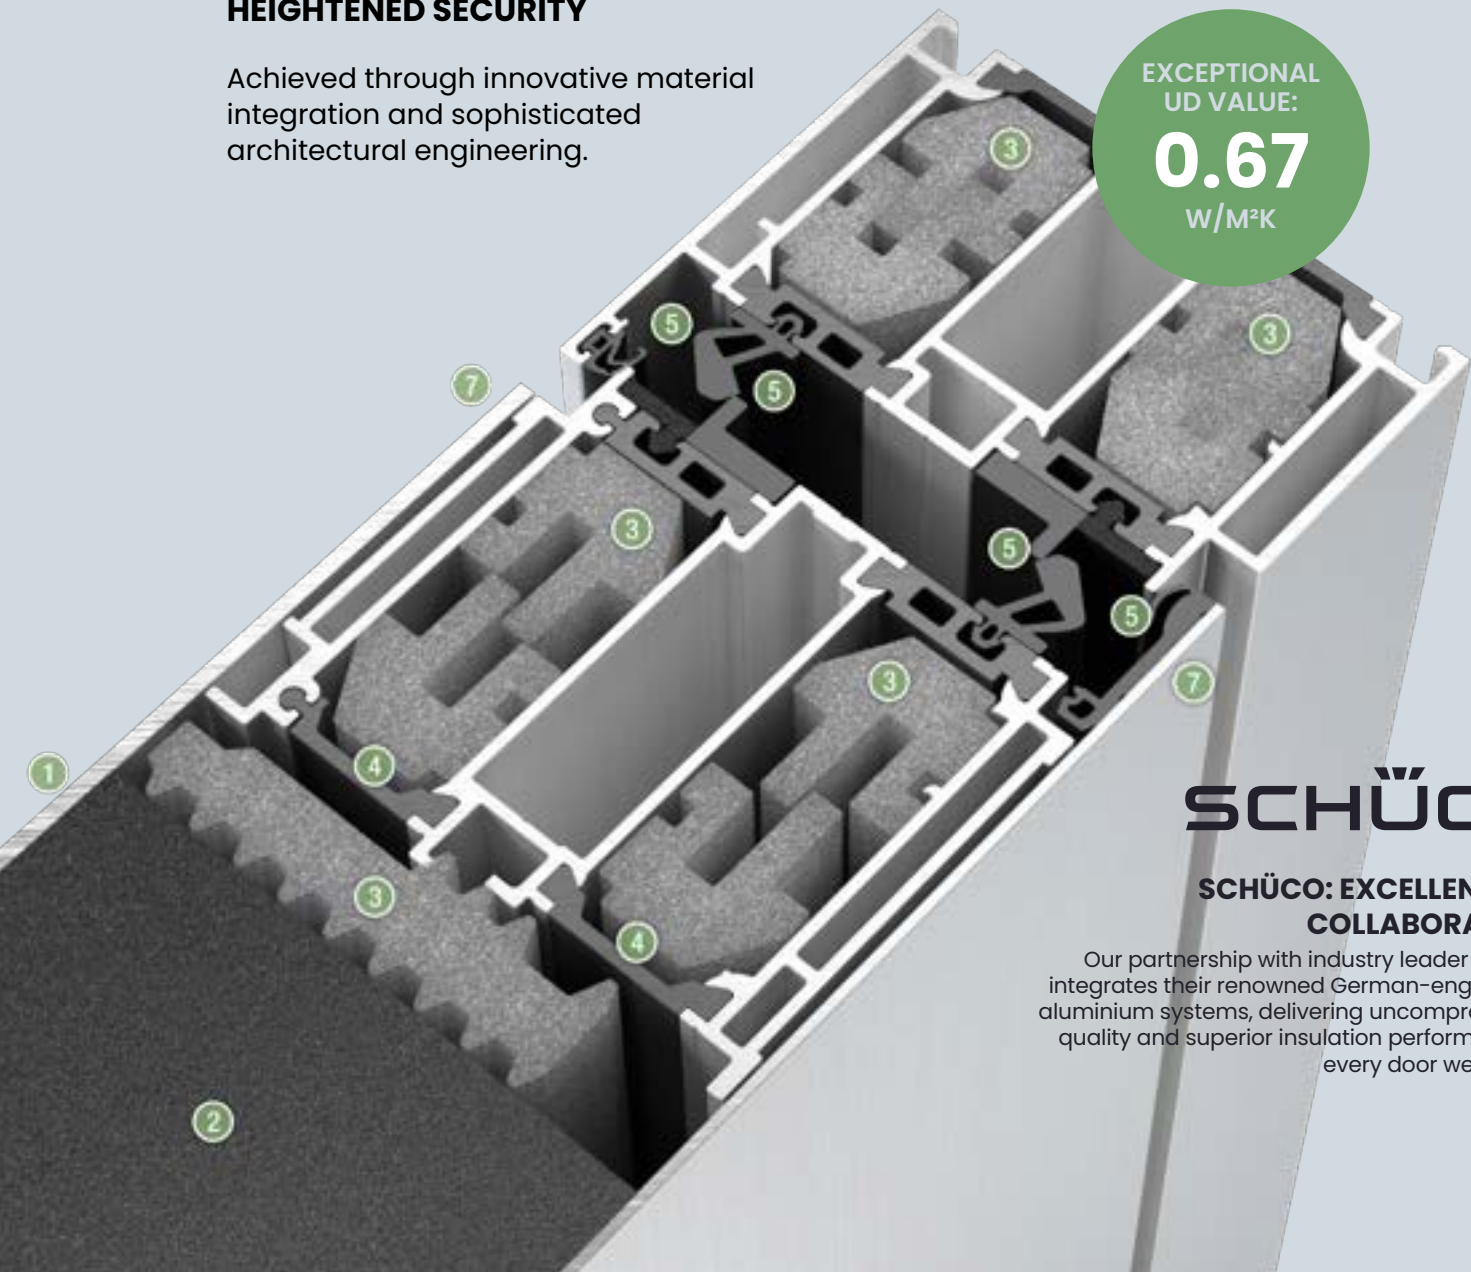

PERFORMANCE

ENGINEERED EXCELLENCE AND HEIGHTENED SECURITY

Achieved through innovative material integration and sophisticated architectural engineering.

EXCEPTIONAL UD VALUE:

SCHÜCO

SCHÜCO: EXCELLENCE IN COLLABORATION

Our partnership with industry leader Schüco integrates their renowned German-engineered aluminium systems, delivering uncompromising quality and superior insulation performance in every door we create.

**PAS 24
SECURITY**
WITHOUT COMPROMISING
ON CLARITY OR BEAUTY

1. 90mm reinforced door leaf providing enhanced stability, strength, and superior acoustic and thermal insulation
2. Premium 3mm aluminium exterior shell
3. Advanced thermal and acoustic insulation core utilising high-density PU rigid foam
4. Supplementary insulation barriers within all profile sections
5. Quadruple EPDM seal system ensuring optimal thermal efficiency and complete water resistance
6. Barrier-free threshold with just 20mm profile height featuring thermal break technology
7. Flush finish to inner and outer door face

DIMENSIONAL STABILITY IN ALL CONDITIONS

Temperature fluctuations between seasons typically cause door materials to expand and contract, creating alignment issues and operational difficulties. Schüco doors employ advanced thermal break technology and precision sealing systems that eliminate the bimetallic effect, ensuring flawless performance and consistent operation regardless of extreme temperature variations.

DESIGN

REFINEMENT

Every Schüco door features concealed interior leaf profiles as standard, delivering architectural purity and sophisticated elegance without compromise. We've eliminated the need for options by making the premium choice our only choice.

ENGINEERING PRECISION: HINGES

The advanced barrel hinge system from Schüco delivers exceptional structural support and optimal weight distribution while maintaining a sleek, architectural aesthetic. These precision-engineered components offer fine adjustment capabilities without disassembly.

Schüco doors include three premium barrel hinges in sophisticated stainless steel finish as standard, with optional colour-matched finishes available for complete design integration.

A photograph of a modern building entrance at dusk. The structure features large glass windows and doors, supported by columns with a mix of stone and wood paneling. The interior is warmly lit, and the exterior has recessed lighting. The sky is a deep blue, and trees with autumn foliage are visible in the background.

EXPERIENCE

EXCELL

A photograph of a modern building's entrance at dusk. The building features a large glass facade with a central door, reflecting the interior lights and the surrounding trees. The ceiling above the entrance is made of horizontal wooden slats with recessed lighting. To the right, a stone wall with grey and tan blocks is visible. In the foreground, there are concrete steps and some greenery, including a small evergreen tree and a large rock.

ENCE

BEYOND SECURITY

AN INTEGRATED HOME PROTECTION ECOSYSTEM

As standard, every Schüco door incorporates a precision-engineered PAS 24 certified security system crafted from premium stainless steel.

This sophisticated multi-point locking mechanism features a primary hook lock supplemented by dual pin bolts and dual hook bolts positioned at strategic reinforcement points. The hardened steel pin bolts anchor securely into the frame, while the specialised hook bolts prevent forced separation attempts - creating a virtually impenetrable barrier.

The advanced cylinder permits secure locking from either side, maintaining security even when a key remains inserted. The signature locking system pairs fortress-like protection with refined operation - featuring whisper-smooth movement, gentle soft-close functionality, and zero-maintenance engineering for lifetime performance.

ELEVATED SECURITY SOLUTIONS BY KFV

For those who demand security beyond the exceptional, we offer advanced locking architectures tailored to your lifestyle.

Intelligent Security System - This sophisticated five-point locking mechanism seamlessly blends fortress-grade protection with intuitive functionality. The system engages automatically when your door closes,

deploying five precision-engineered locking points without requiring a key turn. This self-securing technology ensures your home remains protected, eliminating uncertainty about your door's security status.

ARCHITECTURAL ENTRANCE COMPOSITIONS

Enhance your entrance with harmoniously integrated side panels or transom windows - the definitive approach to creating a complete architectural statement. We offer a spectrum of elegant configurations adaptable to your home's aesthetic and spatial requirements, transforming a simple doorway into a sophisticated entrance experience.

With impressive dimensions reaching 3000mm in height and 1500mm in width, Schüco doors create a commanding presence. Amplify this architectural impact by incorporating complementary side panels or transform glazing-elements that not only enhance visual grandeur but also introduce natural light to your interior spaces.

STYLED

BY

YOU

REFUSE TO

COMPROMISE

Your home's entrance deserves nothing less than perfection. We've developed an extraordinarily adaptable system that delivers precisely tailored solutions - creating not just an entrance, but a profound first impression that reflects your individual sensibility and elevates your home's architectural presence.

SE

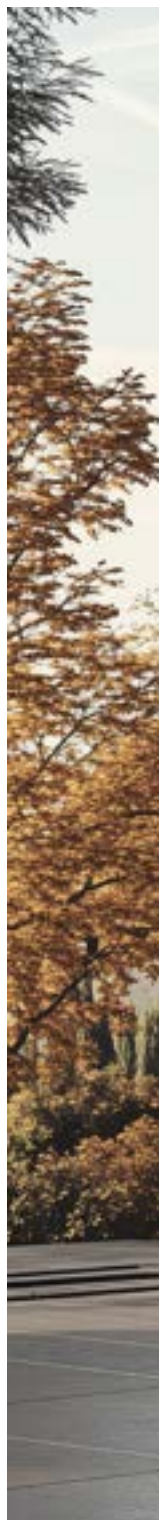

REFINED URBAN **SOPHISTICATION**

Our signature collection balances commanding presence with contemporary industrial aesthetics - creating entrances that make a confident statement while complementing modern architectural sensibilities.

EXPRESS YOUR

DISTINCT VISION

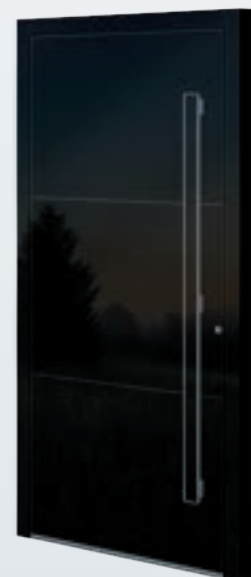

THE ESSENCE OF CHOICE

Your door isn't merely a purchase - it's an expression of your home's character and your personal aesthetic. It should make a statement that endures.

Each Schüco design is crafted by professionals who understand that exceptional function and design must respect both architectural integrity and contemporary trends. Our singular purpose: delivering perfection that reflects your distinct vision.

YOU DESERVE **EXCELLENCE**

With cutting-edge innovation and refined design. Our purpose:
creating flawless entrances worthy of you and your home.

SUBTLE REFINEMENT OR

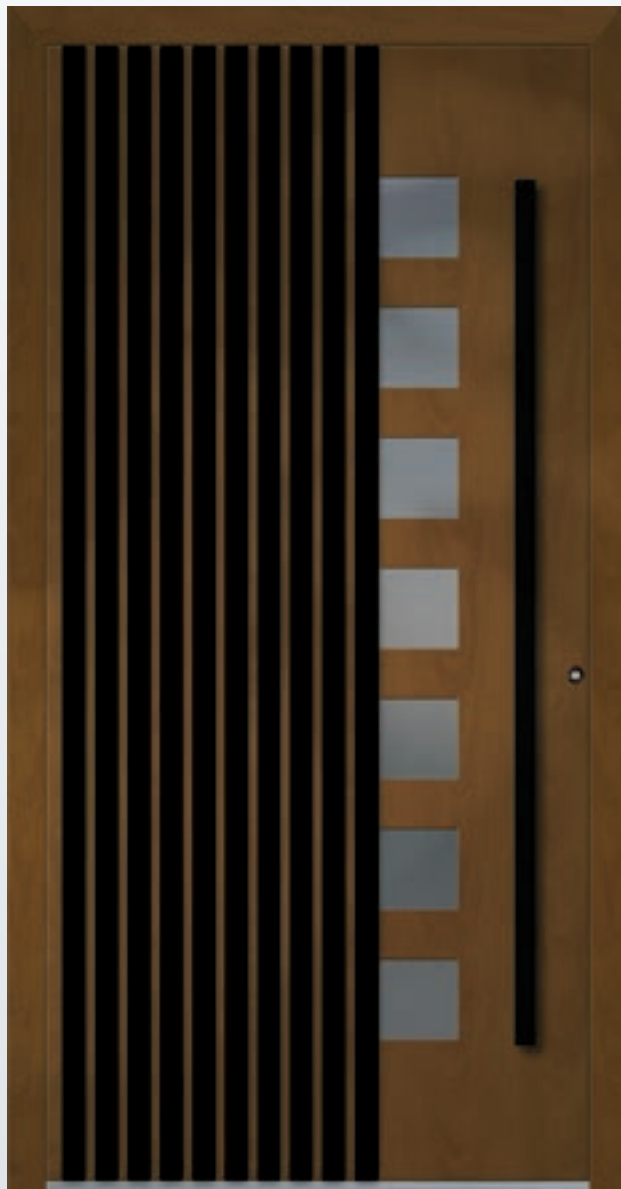

BOLD DECLAR ATION?

Your entrance should be as unique
as your signature.

APPRECIATE ARCHITECTURAL **MODERNISM?**

So do we. Our designs celebrate clarity and restraint with purposeful visual focus. Discover how we've translated modernist principles to the perfect entrance scale.

PURE STYLISTIC **ELEGANCE**

Defines our premium collection
with concealed profiles throughout
- created for those who demand
the exceptional.

A photograph of a modern building's entrance. The building has a white, textured facade. A central red door with a vertical glass panel is the focal point. The door is flanked by two wall-mounted light fixtures and a mail slot. The entrance is paved with large, light-colored stone tiles. To the left, there is a small green bush and a gravel bed. The overall aesthetic is clean and contemporary.

ENTIRELY

BESPOKE

WE MAINTAIN NO INVENTORY.

Each Schüco door is individually crafted to your exact specifications - a singular creation designed exclusively for your home.

WE CELEBRATE

UNIQUE NESS

This principle drives our extensive customisation options, ensuring your entrance makes a distinctive architectural statement.

EACH ENTRANCE TELLS A
STORY BEGINNING AS

INSPIR ATION

Conceived in imagination, translated to precise drawings, and realised through master craftsmanship. Every element emerges from collaboration between designers, engineers, and artisans - delivering contemporary aesthetics, functionality, and exceptional value in one cohesive creation.

PRESERVED **ELEGANCE**

Our exclusive stainless steel lock surrounds integrate protection with beauty. Select the design that complements your vision.

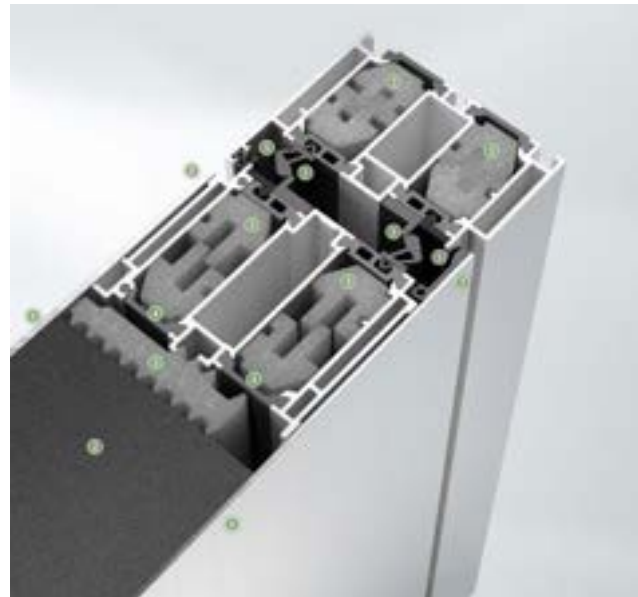

FOUNDATION **ELEMENTS**

Our premium stainless steel base details offer both sophisticated aesthetics and superior protection against daily wear. Elegance with added resilience.

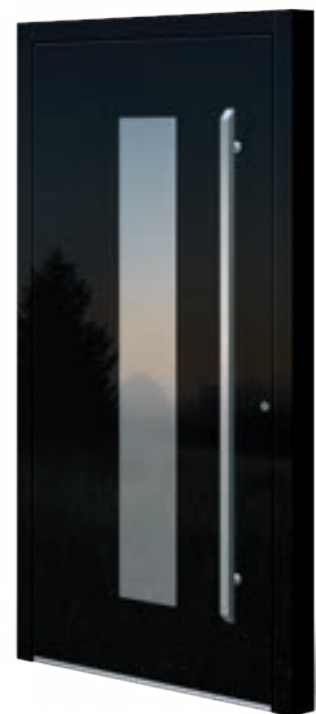

FRAMING **AESTHETICS**

Every Schüco Entrance Door has flush finish inside & out.

SENSORY **SURFACES**

Elevate your door beyond the visual with tactile distinction. Our premium finishes engage both sight and touch, creating a multisensory entrance experience. Will you choose the structured character of sharp grain, or the sophisticated restraint of smooth matte?

THE FIRST

TOUCH

Crafted from architectural-grade stainless steel for uncompromising durability, our ergonomic handles create a daily interaction that's both intuitive and satisfying.

INTERIOR ELEMENTS

Contemporary stainless steel levers paired with fortified locking cylinders ensure elegant functionality from both sides of your entrance.

COMPLETE YOUR ENTRANCE WITH **SIGNATURE ADDRESS ELEMENTS**

Choose dimensional or surface-integrated numerals in premium metals - the refined detail that completes your architectural statement.

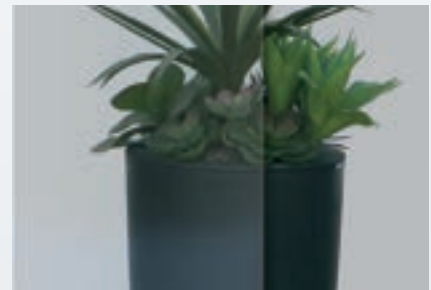

INTRIGUE THROUGH LIGHT

Introduce natural illumination with sophisticated glass elements in your chosen aesthetic. Every glass component features triple-glazed safety construction - security never compromises your design vision.

ULTION  | **STAYS
LOCKED**

When it locks, it stays locked.

Ultion isn't just another door lock - it's a security system built into your front door. With anti-snap, anti-drill, and anti-pick technology, Ultion actively resists break-ins, even under extreme force. Its unique lockdown mode triggers when it detects forced entry, securing your home when you need it most. Backed by a £5,000 guarantee, Ultion gives you peace of mind with every turn of the key.

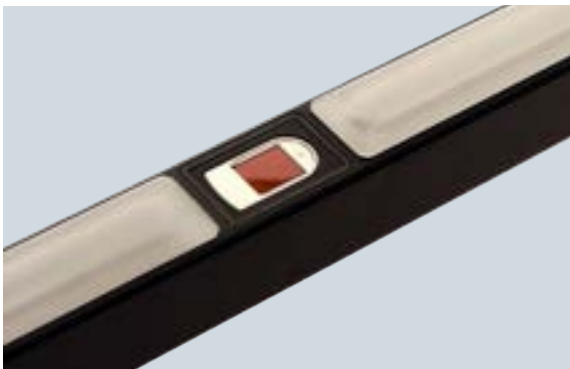

BIO METRIC

ELEGANCE: YOUR FINGER AS KEY

Transcend conventional entry systems with integrated fingerprint authentication. The sophisticated ekey biometric reader offers streamlined access control in a discreet architectural form. Perfectly integrated with MODE doors, this advanced technology eliminates keys while enhancing both security and daily convenience - effortless sophistication for the modern lifestyle.

PERSONALISED DIGITAL ACCESS

Program your unique access sequence with our integrated numerical authentication system. This architectural keypad element merges seamlessly with your door's design aesthetic while providing sophisticated security management. With capacity for 99 distinct access codes, it offers personalised entry privileges for family members and trusted visitors - refined technology elegantly concealed within your entrance design.

BESPOKE CREAT ION

Found something close to perfect but not quite right? Our exclusive design collaboration service allows you to create a completely personalised entrance while our technical artisans handle all engineering aspects.
