OAKMONT

GLAZING SYSTEMS

AT OAKMONT, WE STRIVE TO BE MORE THAN YOUR TYPICAL WINDOW AND DOOR COMPANY WITH A STRONG EMPHASIS ON DESIGN.

Our team has been in the glazing industry for many years with long-standing relationships with homeowners, architects and the very best suppliers to ensure you are getting the highest quality of products. As a company, we remain independent from the factories and suppliers we work with so we can genuinely give you honest and uncompromised advice. Our ambition is to ensure you get the right products for your project, rather than to compromise your vision based on the limitations of a window or door.

We take a hands-on approach to assist architects across the whole of the UK in designing and specifying the right products, even as early as the feasibility stage. We offer free design drawings with every project and can talk you through the pros and cons of each idea, solution or system.

WE UNDERSTAND IT'S NOT
EVERYDAY SOMEONE BUYS
WINDOWS AND DOORS, AND
LET'S FACE IT, THEY ARE MORE
COMPLICATED THAN YOU
INITIALLY THINK.

With so many companies out there all telling you different things, it's hard to decipher what is and isn't true. At Oakmont, our aim is to give you honest advice and focus on the best design solution for you. With a variety of products and factories we can choose from, we have the very unique advantage of being able to actually choose the right solution for you, rather than pushing the only product or factory we use.

If windows and doors aren't your thing and you're not sure where to start, we are here to help. Whether you want to discuss the pros and cons of the different systems we have, or if you want to find ways to get your budget down whilst not compromising on quality, we are always full of ideas and happy to talk things through with you.

Due to our diverse range of products, we are able to offer everything to you in the same package. If you're looking for all new windows for your home, with sliding doors out the back, a new front door, and some bi-folds for your garden room, you can have them all specified, designed and supplied by one single company, taking all the stress away from you.

ORDER PROCESS

WE WANT YOUR EXPERIENCE WITH OAKMONT TO BE SMOOTH, AND FOR YOU TO ENJOY THE PROCESS OF ORDERING DOORS AND WINDOWS FROM US. THAT'S WHY WE HAVE CREATED AN ORDER PROCESS SO YOU CAN KEEP TRACK OF WHERE YOUR PROJECT IS AT AND WHAT TO EXPECT NEXT.

- 1 When you decide to place your order with us, the first step is for us to start drawing your bespoke windows and doors in AutoCAD. This will allow you to get a feel for what your beautiful new doors and windows will look like and to check we have the specification you want. If anything needs changing on your drawings, just let us know. We can work with you to ensure the design is exactly how you imagined.
- 2 Once you are happy with your drawings and they are correct, we will issue you a final set of construction issue drawings for you to approve for production.
- 3 We will then get your windows and doors into production and it's at this point your lead time begins.
- 4 When the factory has your order in their system, they will provide us with an estimated delivery date which we will forward onto you. It's at this point you should book your chosen installer in so they know when to expect the arrival of your new windows and doors.
- 5 In the week or so before your new windows and doors arrive on site, we will send you an invoice for the final balance on your products. Once this balance has been paid, we will coordinate the delivery of your products to you, ready to be installed on site.
- 6 Once all of your windows and doors have been installed, why not show them off and send us some photos of the finished product. We love to know our customers are happy so any feedback or reviews on Google or Facebook are very much appreciated. We may even send you a bottle of wine to say thank you!

WINDOWS AND DOORS ARE ONE OF THE UNIQUE FEATURES IN A HOME THAT CAN BE SEEN BOTH ON THE OUTSIDE AND ON THE INSIDE OF A HOME.

They not only impact the way your home looks on the outside, but the products you choose will also affect the look and feel of your interiors.

As part of our order process, we not only draw your products in AutoCAD so you can visually get a feel for what they will look like, we have also teamed up with a local interior design company to help you choose the best colours and style for your new windows and doors.

With every order, we offer a free 30 minute consultation with our interior designer. In this meeting you can discuss your ideas and ensure your windows and doors are perfect for your project. To book in for your consultation with our interior designer, fill out our contact form on our website or email us directly.

"FROM START TO FINISH WE HAVE HAD GREAT SERVICE FROM EMMA, EMELIA, AND NIGEL AT OAKMONT. VERY RESPONSIVE AND PATIENT WITH OUR VARIOUS QUESTIONS AND DEMANDS, AND WE HAVE A GREAT QUALITY FRONT DOOR THAT WE LOVE AT A VERY COMPETITIVE COST. THANKS VERY MUCH."

Toby Winterbottom

"DELIGHTED WITH MY WINDOWS, PARTICULARLY THE GLASS TO GLASS CORNER ONE. GREAT QUALITY BUT ALSO A GOOD PRICE. THE SERVICE FROM ALL THE STAFF WAS EXCELLENT, FRIENDLY, BUT ALSO FELT THEY REALLY KNEW WHAT THEY WERE DOING. WOULD DEFINITELY USE THEM AGAIN."

Lorna MacDonald

WINDOWS

SASH

TIMBER WINDOWS

TIMBER SLIDING SASH WINDOWS ARE BEAUTIFUL. AT OAKMONT, WE TAKE THE BEAUTY AND TRADITION OF A SLIDING SASH WINDOW AND COMBINE IT WITH MODERN METHODS TO ENSURE YOU END UP WITH A MODERN WINDOW, SUITABLE FOR BOTH MODERN AND TRADITIONAL HOMES.

Type	Sliding Sash
Mechanism	Spiral, Weights, Tilt
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber
U Value	1.0-1.5
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

If you want to honour tradition, we offer our sash windows with a traditional weights and pulleys system to give you that unmistakable sound and feel. However; if you want to do a more modern take on a classic, we also offer spiral balance. This system allows us to reduce the size of the frames, meaning you get more glass as a result.

All of our sash windows offer a wide selection of timber choices, finishes, accessories and horn details, giving you the freedom to create something that complements your home and reflects your personality.

COMBI

TIMBER AND ALUCLAD WINDOWS

COMBI TIMBER AND ALUCLAD WINDOWS OFFER SLIM PROFILES WITH THE BEAUTY OF A NATURAL TIMBER WINDOW. PEOPLE OFTEN LOVE THE IDEA OF HAVING TIMBER WINDOWS IN THEIR HOME BUT ARE OFTEN PUT OFF BY THE MAINTENANCE AND THE THOUGHT OF HAVING TO REPAINT THEM EVERY FEW MONTHS OR YEARS. COMBI WINDOWS ARE DESIGNED FROM THE GROUND UP TO OFFER INCREDIBLE DURABILITY COMBINED WITH EXCEPTIONAL LEVELS OF PERFORMANCE.

Type	Casement window
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber, Aluclad
U Value	0.8-1.4
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak, Accoya

Combi timber windows are made from slow grown timber and then engineered. This makes them highly durable and ensures they last for many years to come. Each window is individually designed to your specific needs and factory finished to any classic RAL colour. There are even a choice of stains for those who want a more natural look.

Combi timber windows open outwards and offer an upgrade using a reversible hinge so the windows can be easily cleaned from the inside. With a full range of matching doors, Combi timber windows are the obvious choice for anyone wanting consistency and symmetry around their home, as well as beautifully designed products.

Combi aluclad windows take all the benefits of the timber counterpart and add a layer of aluminium externally to vastly reduce any maintenance. This also allows you to have a different colour inside to outside at no extra cost.

THERMAX

TIMBER AND ALUCLAD WINDOWS

THERMAX WINDOWS ARE THE WINDOW OF CHOICE FOR ARCHITECTS AND HOMEOWNERS WHEN LOOKING FOR EXTREMELY HIGH LEVELS OF PERFORMANCE.

Type	Tilt and turn
Double Glazed	No
Triple Glazed	Yes
Material	Timber, Aluclad
U Value	0.7-1.0
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

Each window is designed using a tilt and turn mechanism which allows you to design large opening windows, combined with the most secure of ventilation points. Thermax offers different profiles ranging from traditional to modern and even allows you to design hidden vents and hidden hinges (optional extra) to keep things simple and clean.

Thermax windows are only available in triple glazing, with the option to upgrade to Passiv levels. The Passiv upgrade adds a layer of insulation to the core of the window giving you U-values of 0.7.

Our Thermax timber windows also offer the option to clad the external side of the window in aluminium creating an aluclad window. This option gives you all the benefits of a timber window internally, with the low maintenance of the aluminium externally. This also allows you to have a different colour or finish on the interior and exterior at no extra cost.

MARCONI

TIMBER AND ALUCLAD WINDOWS

OUR MARCONI WINDOWS ARE DESIGNED USING ENGINEERED TIMBER PROFILES THAT HAVE BEEN SLOW GROWN FOR HIGH DURABILITY AND STABILITY. THESE TIMBER WINDOWS CAN THEN BE CLAD EXTERNALLY IN ALUMINIUM TO GIVE YOU ZERO MAINTENANCE, WHICH IS PERFECT FOR EVERY FAMILY HOME.

Type	Tilt and Turn Window
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber, Aluclad
U Value	0.8-1.3
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

Marconi are tilt and turn windows which allow you to go to large sizes and offer you secure ventilation, as well as the ability to clean the windows from the inside. These windows give you ultimate flexibility with choice. You can select the timber type, the shape of the timber and the shape of the aluminium, giving you something that is unique to your personal taste. These windows are also designed to match with our HS lift & slide doors, with matching hinged doors, to give you symmetry around your home.

Marconi can be supplied either double or triple glazed giving you great flexibility and ensuring it is suitable for even the highest levels of performance.

LUMIS

ALUCLAD WINDOWS

YOUR CHOICE OF WINDOWS WILL BE A DEFINING PART OF YOUR HOME. NOT ONLY SHOULD THEY LOOK STUNNING, BUT THEY ALSO DETERMINE THE COMFORT OF YOUR HOME WITH THE WAY THEY RETAIN HEAT AND KEEP NOISE OUT. WITH ALL OF THAT IN MIND, PLEASE MEET LUMIS. DESIGNED TO OFFER A MODERN, SLIM DESIGN WITH UNRIVALLED LEVELS OF PERFORMANCE WITH ITS ALUCLAD FRAME.

Type	Casement Window
Double Glazed	Yes
Triple Glazed	Yes
Material	Alu-Clad
U Value	0.8-1.4
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

Lumis windows combine the zero maintenance you associate with an aluminium window, with all the thermal properties of a timber window - it really is the best of both worlds. This key feature also gives you endless design options. If you are looking for the more modern look of aluminium, we can factory paint the timber internally to any colour. Or if you want a more natural look, you can have a clear timber finish. Better still you can have a mixture of both around the home but still see the same window with the same details giving you symmetry.

Lumis is designed to be adaptable to suit your vision and your style. We really give you the tools to create a window to complement your home and to complement your personality. Combined with a full range of matching doors, Lumis has the ability to be used throughout your home to create symmetry and a cohesive design.

REYNAERS SL38

ALUMINIUM WINDOWS

OVER RECENT YEARS THE STEEL LOOK HAS BECOME INCREASINGLY POPULAR ONCE AGAIN. SL38 HAS BEEN DESIGNED FROM THE GROUND UP TO OFFER THAT FEELING BUT USING ALUMINIUM TO MEET MODERN PERFORMANCE REQUIREMENTS, BUT ALSO TO OFFER MUCH MORE COMPETITIVE LEVELS OF PRICING.

Type	Tilt and Turn Window
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	1.2-1.6
Trickle Vent Option	Yes
PAS24	Yes

Designed in Belgium, Reynaers SL38 windows have become extremely popular with both homeowners and architects due to the zero maintenance of aluminium and their slim profiles. SL38 has been designed to offer all the functionality of a tilt and turn window, whilst reducing the size of the aluminium profile, therefore maximising the glass and light in your home.

Having such slim profiles doesn't mean compromise. Each window has been tested to ensure the highest levels of security and each window still has to option to be either double or triple glazed. SL38 really is a window designed for a modern home.

REYNAERS SL68

ALUMINIUM WINDOWS

IN TODAY'S WORLD, PEOPLE ARE SEARCHING FOR SLIM WINDOWS THAT ARE ZERO MAINTENANCE AND DESIGNED TO LAST FOR DECADES TO COME.

Type	Casement Window
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	1.3-1.6
Trickle Vent Option	Yes
PAS24	Yes

Our Reynaers SL68 window offers just that. SL68 is designed to offer slim aluminium profiles, to give you a simple and clean design that looks beautiful in any setting.

Reynaers SL68 windows are available in both double and triple glazing to ensure they not only look beautiful, but also are energy efficient for a modern home. SL68 also offers the ability to design a window using glazing bars if you want to create something a little more traditional or with a feel of steel.

Slim profiles, incredibly flexible and robust, SL68 is a great fit no matter the design you wish to achieve.

REYNAERS CS77 & MASTERLINE

ALUMINIUM WINDOWS

REYNAERS CS77 WINDOWS ARE DESIGNED TO GIVE THE QUALITY OF THE REYNAERS BRAND AND THE ABILITY TO DESIGN LARGE WINDOWS, PRACTICAL ENOUGH FOR THE DAILY USE OF A FAMILY HOME. CS77 IS BUILT ON THE BASIS OF A TILT AND TURN PROFILE WHICH GIVES YOU THE ABILITY TO VENTILATE EACH ROOM SECURELY, BUT ALSO ALLOWS YOU TO DESIGN HUGE SECTIONS OF GLASS AND LARGE OPENING SECTIONS.

Type	Tilt and Turn Window
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.8-1.6
Trickle Vent Option	Yes
PAS24	Yes

With CS77 windows you have the choice of three profile styles; Functional, Renaissance and Hidden Vent, as well as the option to use double or triple glazing. CS77 is a great option for you if symmetry across your project is a must. Each window will be finished to your choice of classic RAL colour to ensure it complements your project perfectly.

Masterline is the big brother version of the CS77 window and is designed to go to even larger sizes with even lower U-values, with the same detailing as the CS77 window. Bigger sizes and better performance, we constantly strive to push boundaries as to what is possible to help you achieve your vision.

STEEL

WINDOWS

STEEL WINDOWS ARE BEAUTIFUL BY THEIR NATURE AND BRING SO MUCH CHARACTER TO A HOME. IT'S NO SURPRISE THEY ARE SO POPULAR IN TODAY'S MARKET WITH THEIR SLIM FRAMES AND SLENDER LINES.

Made from hot rolled steel profiles, steel windows have the ability to be made to unique shapes, including curves, with ease.

W20 windows were originally introduced to the market in 1912 and are used primarily in internal settings. W40 and W50 are designed to offer an external solution depending on the level of performance you require. Our steel windows combine traditional with modern methods to bring steel into the 21st century.

Finished to any RAL colour, bronze alike finish, metallic or bare steel, our steel windows can be personalised to your liking and make a house really feel like a home.

Type	Casement Window
Double Glazed	Yes
Single Glazed	Yes
Material	Steel
U Value	1.2-1.6
Trickle Vent Option	Yes
PAS24	No

RESIDENCE COLLECTION (R2, R7 & R9)

UPVC WINDOWS

THE RESIDENCE COLLECTION IS A GREAT CHOICE FOR ANY STYLE OF HOME. WHETHER YOU LIVE IN A MODERN HOME WITH CLEAN LINES OR A TRADITIONAL VICTORIAN PROPERTY WITH LOTS OF CHARACTER - THERE IS A WINDOW WITHIN THE COLLECTION FOR YOU.

Made in the UK, the residence collection is a uniquely designed UPVC window that is always flush on the outside giving you those lovely clean lines. With matching doors, a wide range of colour and finish options, handle and beading options, you can create a unique window to suit the style of your home.

Type	Casement Window
Double Glazed	Yes
Triple Glazed	Yes
Material	UPVC
Trickle Vent Option	Yes
PAS24	Yes

DOORS

JETRAE

TIMBER DOORS

JETRAE ENTRANCE DOORS ARE ONE OF A KIND. MADE IN DENMARK, THEY ARE HAND-CRAFTED AND UNIQUE IN DESIGN, WITH EACH DOOR HAVING A STEEL CORE BUILT INTO THEM WHICH IS THEN CLAD IN TIMBER. THIS OFFERS ULTIMATE SECURITY AND ENSURES YOU HAVE A TIMBER DOOR DESIGNED TO LAST FOR DECADES.

Due to the steel core, a JeTrae door can never warp or twist allowing them to be used in the most exposed locations with confidence.

JeTrae doors come in a variety of timbers and finishes with the choice of a black or white steel core. JeTrae doors can be supplied in Oak, Mahogany and Freijo with an oil or painted finish.

Whilst fully bespoke sizes are available, JeTrae also offer some standard sizes to reduce your cost and lead time. Their standard sizes are:

- 950 x 2050
- 950 x 2120
- 890 x 2090
- 990 x 2090

Type	Entrance Door
Double Glazed	No
Triple Glazed	Yes
Material	Steel with Timber Cladding
U Value	0.8-1.0
Trickle Vent Option	No
PAS24	No
Timber Options	RAL, Mahogany, Freijo, Oak
Open Direction	Inwards Only

MODE

DOORS

IF YOU'RE WANTING TO MAKE A BIG STATEMENT WITH YOUR FRONT DOOR AND CREATE SOMETHING THAT IS ONE OF A KIND, OUR MODE DOOR IS THE ENTRANCE DOOR FOR YOU.

WITH THE ABILITY TO GO TO 3 METERS TALL AND 1.3 METERS WIDE, MODE DOORS ARE MONUMENTAL MASTERPIECES.

With many different configurations to choose from with toplights, sidelights and double doors, MODE can fit any size of home.

Want to go even bigger? MODE pivot doors can reach 4 meters tall and 2 meters wide - now that is a statement!

Made in aluminium with insulation at their core and triple glazed as standard, MODE doors are strong, durable and low-maintenance.

The finish options are where our MODE doors stand out from the rest. You can choose from hundreds of RAL colours, a vast range of speciality satin finishes, or even provide us with your own finish that ties into your home.

No matter which door style you choose, you can pick any finish, any handle and any accessory to create a fully bespoke door for your home. The possibilities are endless with MODE.

Type	Entrance Door
Double Glazed	No
Triple Glazed	Yes
Material	Aluminium
Trickle Vent Option	Yes
PAS24	Yes

COMBI

TIMBER AND ALUCLAD DOORS

YOUR ENTRANCE DOOR IS THE FEATURE OF YOUR HOME. IT'S THE FIRST THING PEOPLE SEE, IT'S THE FIRST THING THEY TOUCH, AND FIRST IMPRESSIONS COUNT! OUR COMBI DOORS COMBINE SCANDINAVIAN PERFORMANCE, DURABILITY AND KNOW HOW, WHILST GIVING YOU THE OPPORTUNITY TO CREATE SOMETHING UNIQUE AND SOMETHING THAT REFLECTS YOU.

Type	Entrance Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Pine
U Value	0.8-1.4
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Stain, Oak, Accoya
Open Direction	Inward or Outward

With dozens of design options (or the ability to create your own) these doors can be finished to a choice of colour or stain, with a wide variety of accessories to give your door that finishing touch. We really do give you the ability to create someone special and unique to you.

Our Combi doors can offer both inward and outward opening and can be designed to offer something traditional, or super modern. We also have a full range of matching doors and windows to ensure that we can achieve symmetry in design and performance throughout your home.

Bespoke for you, designed to be secure and last for years to come, the Combi door is the obvious choice for every family home.

STEEL

DOORS

STEEL DOORS HAVE BECOME INCREDIBLY POPULAR OVER RECENT YEARS AND IT'S EASY TO SEE WHY. COMBINING TRADITIONAL DESIGN, WITH MODERN TECHNOLOGY, STEEL DOORS OFFER YOU SOMETHING STUNNINGLY BEAUTIFUL AND SOMETHING THAT CANNOT BE REPLICATED FULLY USING ANY OTHER MATERIAL.

Type	Single, Double, Sliding & Folding Doors
Single Glazed	Yes
Double Glazed	Yes
Triple Glazed	Yes
Material	Steel
U Value	1.2-1.6
Trickle Vent Option	Yes
PAS24	No

Our steel doors can be used internally and externally with a range of glazing options from single to triple glazing. Each door is carefully made to your exact requirements to ensure we create something to reflect your home and your personality.

As well as hinged doors, we also have the ability to use our steel profiles to create sliding doors, folding doors and even matching windows giving you ultimate flexibility across your project whilst ensuring everything still compliments each other.

With a vast array of finishes and accessories, super slim profiles and triple glazing available, steel doors offer something unique and something special for every family home.

COMPOSITE DOORS

OUR COMPOSITE DOORS ARE BUILT WITH QUALITY AND PERFORMANCE RIGHT DOWN TO THEIR CORE. WITH THEIR RIGID POLYMER SUBFRAME, HIGH DENSITY INSULATED CORE AND HIGH IMPACT RESISTANCE SKIN, OUR RANGE OF COMPOSITE DOORS HAVE EXCEPTIONAL DURABILITY.

Type	Entrance door
Double Glazed	Yes
Triple Glazed	Yes
Material	Composite
Trickle Vent Option	No
PAS24	Yes

The woodgrain finish of our composite doors is developed from oak tree grain, which creates an authentic appearance and superior performance. Coming in an array of designs and colours to suit you, our composite entrance doors are made to stand out and be one of a kind.

With the bonuses of low maintenance, excellent weather tightness and security, as well as being the most energy efficient composite door on the market, you really can't go wrong. There are many different designs, colours, glass options and extras you can choose from, allowing you to truly make a unique feature for your home that will last for years to come.

SLIDING DOORS

Architect – Woodrow Vizor Architects and Photographer – Adam Scott Images

HS

TIMBER AND ALUCLAD SLIDING DOORS

HS LIFT AND SLIDE DOORS ALLOW YOU TO MAKE THE MOST OF YOUR VIEWS WITH LARGE AREAS OF GLASS WHILE BEING ABLE TO MOVE THEM AROUND WITH COMPLETE EASE. EACH HS DOOR IS DESIGNED TO INCORPORATE A LIFT AND SLIDE MECHANISM.

Type	Lift and Slide Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber, Aluclad
U Value	0.8-1.4
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

This mechanism allows the door to pick itself up slightly when the handle is turned, which takes a lot of the weight of the door for you, meaning you can effortlessly slide your door and stop it along the track to fix at any point. This lift and slide mechanism not only helps with weight, but the design ensures they are the most weather tight doors money can buy and offer an extra layer of security.

We understand sliding doors should be the feature and as such all versions of our HS doors can be designed to incorporate glass and opening corners combined with huge areas of glass.

HS aluclad doors take all of the benefits of the timber counterpart and add a layer of aluminium externally to vastly reduce any maintenance. This also allows you to have a different colour inside to outside at no extra cost.

Using the aluclad option, we can also offer an extra design feature called Panorama. This takes the exact same lift and slide door, but uses a much slimmer profile for the fixed sections of the doors. This maximises the glass, and therefore light, but also often allows you to hide much of that framework.

HAJOM

TIMBER AND ALUCLAD SLIDING DOORS

ALTHOUGH ALL OF OUR WINDOWS AND DOORS ARE BESPOKE, HAJOM IS THAT LITTLE BIT EXTRA SPECIAL. HAND-CRAFTED IN SWEDEN, EVERY WINDOW AND DOOR IS DESIGNED FROM THE GROUND UP TO SUIT YOUR PROJECT AND REQUIREMENTS.

Type	Lift and Slide Door
Double Glazed	No
Triple Glazed	Yes
Material	Timber, Aluclad
U Value	0.8-1.0
Trickle Vent Option	Vent Box Only
PAS24	No
Timber Options	RAL, Pine, Oak

Every part of a Hajom door is designed to offer comfort, luxury and bring an unrivalled wow factor to every home. Hajom know each home is different and aim to make a solution to suit your own specific needs.

Each door is made using engineered timber and incorporates a lift and slide mechanism to keep them light to operate, allowing them to be fixed at any point along the track and glide effortlessly like no other door.

Hajom aluclad doors take all of the benefits of the timber version but adds aluminium cladding externally. This extra step allows you to therefore combine the beauty and performance of a Hajom timber door with the extra durability and protection of aluminium externally. Having an aluclad version also allows you to have a different finish inside to outside at no additional cost.

Over the last 100 years, Hajom have created a reputation as the finest timber doors money can buy and combine incredible engineering with fine details which make the doors feel special. Hajom is designed by architects, for architects.

HORIZON

ALUCLAD SLIDING DOORS

HORIZON GIVES YOU A UNIQUE LOOK AND ALLOWS YOU TO HAVE A MORE FRAMELESS, SLIM VISUAL WHILST STILL GETTING THE BENEFITS OF A LIFT AND SLIDE DOOR TO ASSIST YOU WITH THE WEIGHT OF THE DOOR. THIS DESIGN IS BECOMING INCREASINGLY POPULAR FOR THOSE WHO WANT TO HIDE AS MUCH FRAMEWORK AS POSSIBLE TO CREATE SOMETHING SPECTACULAR.

Type	Lift & Slide door
Double Glazed	No
Triple Glazed	Yes
Material	Aluclad
U Value	0.8-1.0
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	RAL, Pine, Oak

All Horizon doors come as standard aluclad and triple glazed to ensure you always get the very highest levels of performance. The internal timber can supplied in a variety of timbers, or for more modern homes can be factory finished to your choice of classic RAL. Better still, you can have an entirely different colour inside to outside at no extra cost.

With multiple configurations, huge areas of glass and matching windows, Horizon allows you to push the boundaries of what is possible without compromising on security or performance.

VIEW

ALUMINIUM SLIDING DOORS

VIEW SLIDING DOORS ARE DESIGNED TO GIVE ARCHITECTS AND HOMEOWNERS UNLIMITED POSSIBILITIES. EACH VIEW DOOR CAN ACHIEVE UNBELIEVABLE DIMENSIONS WHILST ALWAYS MAINTAINING A SUPER SLIM 20MM MULLION.

Type	Sliding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.8-1.6
Trickle Vent Option	Yes
PAS24	No
Mullion	20mm

View is the perfect example of a door that doesn't restrict your vision or design. Combined with beautiful details such as an option for a fully concealed handle and lock, View is designed to offer that wow factor to any home.

Offering some of the largest glass sizes, bespoke configurations, low and flush thresholds, all with that 20mm mullion. View lets your imagination run wild. With possibilities of glass corners, opening corners and pivot doors, View is the perfect choice to create something unique.

FUSION

ALUMINIUM SLIDING DOORS

WHEN USING A SLIDING DOOR, EVERYONE WANTS TO SEE AS MUCH GLASS AS POSSIBLE AND DON'T WANT TO SEE ANY FRAME. FUSION IS PART OF OUR VIEW BRAND AND OFFERS ALL OF THE SAME BENEFITS INCLUDING THAT TINY 20MM MULLION, ALONG WITH THE BIGGEST SLIDING DOORS YOU CAN FIND.

However, Fusion takes it to the next level and allows you to conceal the outer frame into your own choice of finishes within your home. The result? A door that is virtually invisible! Despite this new design, you still have access to all the same design options available on the standard View system, including the concealed handle detail.

Fusion sliding doors allow your imagination to run wild and create something truly unique and one off for you and your home. Combined with double or triple glazing and trickle vents, we have ensured that Fusion is not only stunning, but is also a practical solution for each family.

Type	Sliding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.9-1.6
Trickle Vent Option	Yes
PAS24	No
Mullion	20mm

HIFINITY

ALUMINIUM SLIDING DOORS

HIFINITY SLIDING DOORS ARE DESIGNED WITH SUPER SLIM PROFILES TO MAXIMISE THE GLASS IN YOUR ROOM AND GIVE YOU NEAR FRAMELESS DOORS TO ALLOW THE VIEW TO DO THE TALKING IN YOUR HOME.

HiFinity doors are designed with quality in mind and offer a 35mm mullion. These doors also incorporate a unique handle and electronic lock to ensure you don't have any unnecessary extra profiles at the side of each door. Each door can be powder coated to your choice of RAL colour and can also offer double or triple glazing.

With a maximum height of 3.5m, door weights of 500kg and multiple configurations, HiFinity is designed to push the boundaries of what is possible.

Type	Sliding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.8-1.6
Trickle Vent Option	No
PAS24	Yes
Mullion	35mm

REYNAERS CP130, CP155 & MASTERPATIO

ALUMINIUM SLIDING DOORS

REYNAERS CP SLIDING DOORS ARE DESIGNED TO COMBINE LARGE AREAS OF GLASS, WITH THE EASY-TO-USE DESIGN OF A LIFT AND SLIDE DOOR. BUILT INTO THE BOTTOM OF EACH DOOR IS A HIDDEN MECHANISM DESIGNED TO ASSIST YOU WITH THE WEIGHT OF THE DOOR, MEANING LARGE SECTIONS OF GLASS DON'T HAVE TO BE IMPRACTICAL TO MOVE.

Type	Lift and Slide Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.9-1.6
Trickle Vent Option	Yes
PAS24	Yes

Each door can also be supplied in a Monorail designed where the fixed sections of glass can be designed using a slimmer profile. This maximises the glass and often allows you to hide more of the aluminium frame, giving you that frameless look.

The CP130 is the most popular CP door as it easily fulfils what most people need a sliding door to achieve. However; it also has a big brother version called CP155 which is designed for when much larger sizes, or much higher levels of performance are required.

MasterPatio has recently been added to the range to add even more flexibility and allow you to go even further with your designs. MasterPatio can now offer even larger sizes, slimmer mullions and even lower U values. As such, the specification of your project will dictate which of the three systems is the best fit for you. Our team will happily help you identify which one works best for you and your project.

FOLDING DOORS

LACUNA

TIMBER FOLDING DOORS

LACUNA DOORS ARE PROUD TO BE THE MOST DURABLE TIMBER FOLDING DOORS ON THE MARKET, AS WELL AS BEING BEAUTIFULLY DESIGNED. HAND-CRAFTED IN DENMARK, THESE DOORS ARE MADE USING HEAT-TREATED BEECH, WHICH IS THE SAME PROCESS USED BY THE VIKINGS ON THE HULL OF LONG BOATS.

Type	Folding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber
U Value	0.7-1.2
Trickle Vent Option	Yes
PAS24	Yes
Timber Options	Heat-treated beech

This unique process ensures the timber cannot absorb moisture which makes it extremely robust and means you don't get the normal movement you associate with a timber door. Lacuna doors are designed to last in excess of 50 years, even in more exposed locations.

The heat-treated beech is also exceptional for thermal performance and can achieve overall U values of 1.2 double glazed or as low as 0.7 triple glazed.

Lacuna doors are not only well made and highly practical, they also offer incredible detail that a lot of other doors don't offer. Each handle and hinge is exclusively made for Lacuna, ensuring each piece of ironmongery is exactly the same length and diameter across your door.

Available in a choice of any classic RAL colour, Lacuna doors really are something special that you will love for a lifetime.

NATURO

TIMBER FOLDING DOORS

NATURO FOLDING DOORS ARE DESIGNED TO MERGE THE LINES BETWEEN INSIDE AND OUTSIDE. EACH DOOR IS CAREFULLY CRAFTED USING A VARIETY OF HARDWOOD TIMBERS TO GIVE YOU THE FEEL OF TRADITION AND NATURE IN YOUR HOME.

Type	Folding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Timber
U Value	1.0 – 1.3
Trickle Vent Option	Yes
PAS24	Yes

Naturo folding doors are designed with a thermally insulated core to offer incredibly low U values as standard. This is then clad inside and outside in your choice of timber finish. This design also means the doors are much more stable, ensuring they last much longer than other timber folding doors on the market.

With the ability to create huge expanses that fully open, or the increasingly popular window seats, Naturo allows you to create unique spaces in your home that feel warm and safe. Beautiful timber, modern technology and huge open spaces make Naturo the perfect fit for a family home looking for that wow factor.

REYNAERS CF68/CF77

ALUMINIUM FOLDING DOORS

EVERYONE LOVES THE IDEA OF FULLY OPENING UP THEIR HOME IN THE SUMMER MONTHS WITH FOLDING DOORS. THE IDEA TO REMOVE THE BARRIER FROM INSIDE TO OUTSIDE WHEN HOSTING A BBQ OR WHEN YOU HAVE THE FAMILY AROUND FOR THE EVENING.

Type	Folding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	1.2-1.6
Trickle Vent Option	Yes
PAS24	Yes

Reynaers folding doors are designed to offer you exactly that. Reynaers doors are designed in Belgium but then made here in the UK to offer you the best combination of quality, performance and cost.

CF68 is the door the vast majority of customers use, and despite having very slim profiles can still do large doors and unlimited door designs.

CF77 folding doors are for those customers who want to go big! CF77 allows you to achieve huge sizes and incredible levels of thermal performance.

SCHUCO

ALUMINIUM FOLDING DOORS

DO YOU LOVE THE LARGE PANES OF GLASS A SLIDING DOOR GIVES YOU, BUT ALSO LOVE THE FLEXIBILITY OF A FULLY OPENING BIFOLD DOOR? THEN SCHUCO BIFOLD DOORS ARE THE PRODUCT FOR YOU.

Type	Folding Door
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.8-1.4
Trickle Vent Option	Yes
PAS24	Yes

Schuco bifolds provide slim aluminium frames with the ability to have wider sash sizes than other brands on the market (1500mm per sash), giving you more glass and less frame. The perfect combination.

Finished to any RAL colour, with many opening types including opening corners, monitoring of closing technology, different threshold types, and much more, you can create the perfect bifold door for your home.

Are you wanting to go bigger or need lower U values? You can upgrade your Schuco door to reach 3500mm in height and U values as low as 0.8 making Schuco a great choice for any home.

ROOFLIGHTS & LANTERNS

ROOFLIGHTS & LANTERNS

ROOFLIGHTS & LANTERNS

WE ALL FOCUS ON THE GLASS THAT LOOKS OUT OF OUR HOME BUT WHAT ABOUT THE GLASS THAT LOOKS UP?

Type	Rooflights & Lanterns
Double Glazed	Yes
Triple Glazed	Yes
Material	Aluminium
U Value	0.6 – 1.1
Trickle Vent Option	No
PAS24	Yes

Rooflights and lanterns are a great way to flood your home with light and create the feeling of more space, while also giving you a wow factor.

Our roof lanterns are super slim with no frame internally, only glass to glass connections, giving you more glass and less frame.

With many configurations to choose from, such as frameless lanterns, pyramids, fixed and walk-on rooflights, hinged and sliding rooflights, and bespoke shaped rooflights, you can create glazing that is bespoke to you and your home.

Finished to any Classic RAL colour, double or triple glazed, fully assembled for easy installation and options for standard or bespoke sizes, our rooflights and lanterns are a great choice for any home that wants to make the most of light and the blue skies.

“FROM FIRST PHONE CALL THROUGH TO DELIVERY EVERYONE AT OAKMONT WAS FIRST CLASS NOTHING WAS TOO MUCH TROUBLE AND THEY WERE VERY HELPFUL THROUGHOUT THE PROCESS. ORDERING AND CONFIRMING SPEC WAS MUCH EASIER AND STRAIGHTFORWARD COMPARED TO OTHER SUPPLIERS WE HAVE DEALT WITH OVER THE LAST 22 YEARS BUILDING OVER 80 HOMES. WE WILL DEFINITELY BE USING OAKMONT AGAIN AND HAVE ALREADY RECOMMENDING THEM TO LOTS OF COLLEAGUES. THANKS AGAIN OAKMONT”

Peter Mandefield

“OAKMONT SUPPLIED THE TRIPLE GLAZING FOR OUR NEW EXTENSION. THE FIXED AND SLIDING DOORS ARE BEAUTIFUL AND EXCEPTIONALLY WELL BUILT. OAKMONT WERE A PLEASURE TO WORK WITH, HELPFUL WITH THE DESIGN, AND QUICK TO RESPOND TO THE MANY QUESTIONS WE HAD. I CAN HIGHLY RECOMMEND OAKMONT GLAZING AND THE TEAM”
